INTELLIGENT AND RATIONAL POSITIONS TAKEN AT LAUSANNE

Winnipeg—What is particularly significant about the new Lausanne Treaty on reparations is that after twelve years of middle-class, discrimination, and what can only be called ignorance in high places an intelligent and rational position has finally been taken on one of the issues which vitally affect the reconstruction of Europe as a sound and normally functioning economic organization. This has been accomplished by an agreement among the Allied European countries which, virtually by the operation of the state. The space it is true has left a few blurred outlines behind it, but this is only the inevitable consequence of the methods of diplomacy. Part VII of the Treaty, with all its potentialities for going against astronomical penalties out of Germany, is not expounded as an instrument of force in international affairs and a lost issue, which in all likelihood will never be put to a trifling seven hundred and fifty millions, takes its place as a reasonable estimate of German reparations. The nations have tried a costly party since 1919 to come to this forced composition at last, and it is small wonder that the economic system, that change in policy has now been made; the wreckage having convinced the statesmen that the heavy burden is no longer to be avoided or postponed if the structure of society was not to fall completely apart. To this point had national politics and business conducted the world through the years since 1919, right up to the edge of the chaos in these depths but the economic and destroyers of humanity.

Some idea of the transformation that has taken place in the reparations is gathered if the settlement which has just been made at Lausanne is compared with the early demands put forward under the operation of the reparations clause of the Treaty. When the question of Germany's reparations was first canvassed in 1919 estimates were given by highly respectable authorities which seem enough now. Lord Curzon, then a member, who was Governor of the Bank of England, estimated Germany's capacity to pay reparations at twenty four thousand million pounds, which, according to Mr Lloyd George, was the highest estimate given by anyone. The French Minister of Finance, M. Klotz, estimated in 1919 that Germany should be able to pay three hundred and sixty million pounds; and M. Poincaré, who was French Finance Minister in 1921, estimated Germany's reparations at ten thousand million pounds, and insisted on payments of twelve thousand million gold marks per annum. At this distance these seem like the figures of delirium—which they were; but it

was in the temper which inspired such claims that the question was discussed and the payments enforced; a question with which the reconstruction of Europe and the restoration of stability and peace throughout the world were inextricably involved—with consequences which have been made plain fully manifest to every individual in every one of the countries affected by the war and its financial settlements. Reparations has been the poisoned fountain from which has gushed the bitter waters that have sterilized the commercial and industrial function of international society, and the depredation of the past nine years has largely spent itself in looking for means to dry up the devastating flow. The Doves and the Young Plans at least familiarized public opinion with the fact that the nations would have to pay, and the years of the past eighteen months forced the statement to a realization of the magnitude of the task. The nations have tried a costly party since 1919 to come to this forced composition at last, and it is small wonder that the economic system, that change in policy has now been made; the wreckage having convinced the statesmen that the heavy burden is no longer to be avoided or postponed if the structure of society was not to fall completely apart. To this point had national politics and business conducted the world through the years since 1919, right up to the edge of the chaos in these depths but the economic and destroyers of humanity.

The Larger View

Toronto—The Empire Conference is at hand. Delegates from each of the British realm are converging on Ottawa. The Government concerned has prepared their plans and arranged their line of discussion. While it is inevitable that each delegation will have its own welfare of the people whom it particularly represents, the members must—if the Conference is to be a success—take the larger view prevail; the greatest good for the greatest number; the benefit of the whole rather than special advantages for the parts. Already there is evidence that self interest will be aggressive; and this is to be expected. But the representations of interests with an axe to grind must not be given undue weight. To welfare of the Empire is the issue at stake; and this can be achieved only by the Conference be animated by a spirit of give and take. The British family is needed to talk over the Empire; and loyalty to the family de-

LOCAL JOTTINGS

Mr Frank Fox of the Royal Bank Staff is spending a vacation with his parents at Redcliff.

Hirtle's Theatre will be closed on Friday and Saturday of this week.

John Davis was telling a story that happened when he used to travel up to Stettin. "An old man who lived away from the city had just come to Calgary for a year and one day he went into the city and was told that the 5 and 10 cent store was a small mirror. Looking at it close, he said: 'Well I'll own it that hasn't the pitch of my grandfather.' and he had the clerk walk it up and took it home. One day his wife was looking in the trunk and she ran on to the package and she took out the mirror. She looked at the mirror and said: 'Ah, ha! So that's the old hen, the old hen has been talking about in his sleep.'"

Mike Moran was spending a week end at a friend's country house, and on the morning of the afternoon, after supper, telling the company of all the bathing beauties that he saw at English Bay, Vancouver. There he was sitting on a chair on the veranda, he took his little bottle out on his lap. Presently there was a pause in the conversation, when Mike Moran looked up at the young man and asked: "Am I as heavy as sister Mabel?"

The Barbican News tells the following incident: "Charles Boedisch shipped a cow to the Edmonton stockyards, and the transaction resulted as follows: weight 500 lbs. live 75c per hundred pounds; value of cow 64.50. But Mr Boedisch did not get a cheque for 64.50. There were deductions as follows: insurance, 30c; stockyard 9c; bank reading 10c; commission, 5c; trucking 42c; exchange on cheque 15c; making a total of 16.27 which subtracted from 64.50 left 48.23—the full amount received for the cow."

A young lady studying for the teaching profession, slipped away from the school one day without saying anything, to become secretly married. A couple of days later the young bride sent the following telegram to the principal: "I have been honeymooning at Niagara. Will be back to Normal tomorrow."

Johnnie Wood was one of the successful competitors in the Stampedale Club Wagon race on Wednesday.

There is more joy in a new paper office over one subscriber who pays in advance and allows the publisher an every possible occasion, than there is over nine and nine who borrow the paper and give salesmen without contributing one cent to keep it in existence.

It is the dollars that circulate themselves, in our own community, that in the end build up schools and churches, make our streets, our sidewalks, increase our car values, attract more people to this section. By our merchandise in our local stores means keeping our dollars at home to work for us all.

Sunday, July 17th, doubleheader baseball. Calgary Boaters, members of Senior League, at 1:30 and 4:30 p.m.

On Tuesday afternoon at three o'clock the Women's Institute will meet in the Rest Room. Mrs Duncan Clark of Cluny, Constance Conner will be present. This is the last annual visit to the Strathmore Branch of the W I.

Phyll Brown, who was employed at the C P R Park a few years ago and is now engaged in the lumber business at the coast was a Strathmore visitor this week.

Mrs Hellewell is the guest of Mrs G H Patrick enroute to her home in Vancouver from a visit at the coast clinic.

Mr and Mrs D A Perry expect to leave within a few days for Vancouver and Victoria where they hope to develop a real sunbath while admiring the many bathing beauties of the Coastal cities.

Mayor Shrimpton has arranged a meeting in the Memorial Hall for July 20th at 8:15 p.m. in the interest of reorganization of the Boy Scouts. Addresses will be given by Mayor Osborne of Calgary and by District Commissioner Spiller and C C Hugh of Standard. Supply will be served and it is hoped to have a good attendance in support of this worthy while movement.

Master Gordon Burnett of Iron seller is the guest of his cousin Master Bennett Shrimpton.

The many friends of Mrs. McQueen will be glad to hear she is improving in health, and all hope for a complete recovery very soon.

Mrs Gillies of Hault is the guest of her daughter Mrs W S Paterson and Mr Paterson.

Miss Kate Chamberlain is spending the week in Calgary.

Master Allister McGregor is suffering from a badly sprained ankle as the result of a fall.

Mrs Campbell is the guest for some weeks of her parents Mr and Mrs H S C Chamberlain.

Conductor Bill Hinton, usually a most retiring gentleman, was in high gear on Wednesday morning when the same conductor announced that another son and heir had joined his family family.

I remember said Ernie White when I played golf for the first time. "How did you make out?" "Fine." Made a house run right at the start, I batted the ball into the tall grass in left field and ran around the entire course before they found it.

The staff of the United Church Sunday School wish to thank very cordially all who contribute in any way and so helped to make the day the success that it was.

We regret to report that Mrs Lena Dewitt suffered an attack of the heart Saturday last and was unable to get out of bed. An early recovery is earnestly desired.

The Herald in commenting on the very fine display of the people that Calgary gardeners were exhibiting this year, mentioned also a rose bush in the garden of one of Calgary's finest. It had borne from 1250 to 1500 blooms. As the Standard has previously commented, Strathmore and vicinity can take pride in some very beautiful gardens too which in production of color and variety of flower and fragrance can rival some of Calgary's finest. A rose bush in the garden of Mr George T. Berry would, we venture to say, rival the Calgary one bush above mentioned. We simply gave up the task of counting the buds.

Art Ha's exhibit of C P R Hotel steins set the boards clear at the Calgary Exhibition. Just like taking Candy into a Kiddie.

Mrs Ellen Way has returned from Acme where she was the guest of her son. On Monday they all took in the big Stampede parade at Calgary.

RESERVED SPACE

This space was reserved for a letter to the Editor, which failed to arrive. From the Standard Enquirer, which he has been preparing for the past two weeks.

Subject, "Why I Know About Women." His explanation is that he does not want to complete same until after he returns from his visit to the Rockies, and other points.

Mr and Mrs Glen Nelson of Standard are receiving congratulations upon the birth of a daughter on July 11th.

Someone got interested in Jubilee, Wednesday July 20th, at 8 p.m. in the Dining Room of the Memorial Hall, Strathmore. Commissioner Spiller, Mr F J Osborne, Scout Master Sara and District Commissioner Hugh will be there. Do you leave the extra to them or come?

Mr and Mrs Guthrie and Miss Mona Page of Weston, Manitoba, are guests of their sister Mrs Nell and Mr McNeill. They are on an extended motor trip, having taken in the Windermere trip and visited the mountain resorts.

Mr and Mrs Neilsen and Lois have returned from a very delightful fishing and motor trip in the mountains. They with Calgary friends formed a party of eleven. They visited Golden, the Yoho Valley, Field and various other of the outstanding parts of magnificent scenery, of which there are no more in the Rockies. They report very splendid outing with lots of fish for the angler.

ASSERTS 300,000 TO JOIN RANKS OF UNEMPLOYED

London, Oct. Criticism of the policy of direct relief inaugurated this year by the Dominion Government in dealing with the unemployed situation was voiced by Mr Moore, president of the Trades and Labor Congress of Canada. Mr Moore told the Ontario and Quebec Conference of Typographical Unions in convention here that the government contemplates legislation on unemployment insurance.

Mr Moore said that organized labor cannot control forces of the desperation of masses of men driven from pillar to post. The labor organizations of Canada stand for law and order, he said, but if changes to permit the work to get back to work cannot be made within their limits, they will be made outside of it.

Instead of sitting back waiting for the Imperial Economic Conference, Canada as a young nation with an opportunity to lead the world should be busy engaged in their own house in the world.

Mr Moore said that the world should be busy engaged in their own house in the world. He said that the world should be busy engaged in their own house in the world.

Mr Moore estimated that between 25 and 35 per cent of industrial workers in Canada are unemployed today. There are between one and a quarter and one and a half million people dependent on other relief or on the rapidly declining savings of the workers.

Restoration of the "right to work" and removal from the control of capital of the choice of determining whether men shall work were major problems facing the country today he said.

Mr Moore estimated that between 25 and 35 per cent of industrial workers in Canada are unemployed today. There are between one and a quarter and one and a half million people dependent on other relief or on the rapidly declining savings of the workers.

PRESENTATION TO W. S. PATERSON, POPULAR LEGION SECRETARY

A smoker was held Tuesday night by the Canadian Legion in the Memorial Hall.

After the regular business of the Legion was concluded President Stalla gave a very pleasing and eulogistic address in which he

reminded those present of the many excellent qualities of the Legion, since the time of the organization of the local branch.

Only recently had there been any danger signs in sight, that the young men had not remained "bomb proof" against the attractions of the fair sex.

No longer shall it be possible for men to devote all their spare time in the interest of the Legion, as recently he had "surrendered" unconditionally and become bound hand and foot in the bonds of matrimony.

The members felt that they could not allow this important moment to pass without the opportunity in a very slight manner of recognizing his devoted services and he had much pleasure in asking Mr Paterson to accept from the members as a slight expression a Silver Coffee Service consisting of a percolator, tray, creamer and sugar, and the hope that all his troubles in the future would be little ones.

Pat in his customary manner expressed his hearty appreciation and thanks in a short address, after which all joined in singing "For His a Jolly Good Fellow."

Lampson's speech followed upon the coming Economic Conference, led by Commodore James Gunn, Mayor Shrimpton, L Brooks J Bennett, and Stanley Smith, partly serious, partly humorous were much appreciated by the members. The range of subjects included the Gold Standard, Bacon Market, Exchange rates, Flgs and Poultry were thoughtfully presented and the thought suggested that Premier Bennett, Hon Stanley Baldwin and President Beattie would be well advised to give heed to the many thoughts and suggestions made.

At this juncture, the worthy Pat discovered the fact that he had failed to obtain a "pass" which no experienced benedict would ever overlook, so he quickly packed his kit and made fast time for the C P R Headquarters.

No further business having been presented, President closed the meeting by asking all to join in singing the National Anthem.

QUIET WEDDING AT SAANICH, B. C.

At the little rural church of St. Stephen's, Saanich, a wedding took place quietly at 1 o'clock when Rev J S A Blain united in the holy bonds of matrimony, Gwyneth, only daughter of Mr and Mrs H M Vincent, Linden Ave and Mr W Harold Housen of Victoria, Alberta, son of a quarter and one and a half million people dependent on other relief or on the rapidly declining savings of the workers.

The bride was given in marriage by her father and wore a white gown with small pearls and light travelling hat and a corsage of orchids. Both the bride and groom were unattended and followed the service at the church.

Mr and Mrs Housen left on the afternoon boat for Seattle enroute to Yellowstone Park and other mountain resorts and will later make their home at the H Bar H Ranch at Irricana, near Calgary, Alberta.

The Standard joins in wishing the happy young couple a very bright and prosperous future and a very enjoyable event.

Mr and Mrs Vincent and daughter at one time resided in Calgary.

Mr B O Wyman has started to build his new home south of Bain.

About 50 friends and neighbors gathered at the home of Mr and Mrs Chas County last Friday night and spent a very enjoyable evening, the occasion being Mrs County's birthday.

A Mrs Ned Merkle is home again after a 3 week's visit with relatives at Stnair.

Mr and Mrs Gordon Perloff, Hart, Bae and Will McNeill left for a monthly motor trip to Nova Scotia.

BAINTREE NOTES

Two weeks ago Baintree Juveniles played the Nightingale. All Stars a game of softball and won 10 to 2.

The Baintree ladies also won their game from Nightingale 21 to 3. Last Sunday Nightingale repeat the visit, and anticipated a genuine warmup. Assisted by an expert from Calgary they beat Baintree 10 to 8, not such a hot warm up, Hey, What? Try it again.

Nightingale, with another thought, in just a few days.

Miss Roberta Wyman is leaving again on Friday after a three weeks holiday with her parents to finish the last 8 months of her Nursing Course.

Mr and Mrs Gordon Perloff, Hart, Bae and Will McNeill left for a monthly motor trip to Nova Scotia.

WORLD'S CHAMPION 3 YEAR OLD IN 14 RACES

—O—

Charles Trotting horses are inclined to follow a fancy the way regarding certain families. Particularly with regard to sex, but the records of most families show that in reality there is no preference, even though certain families show a high percentage of stars for one sex. When Peter the Great started his climb to the lead of all sires of his day it was asserted by the conservative horsemanship that only the females or fillies ruled by Peter the Great (2:07 1/4) were desirable. This was chiefly because his first three stars were fillies. They included Sadie Mae (2:06 1/4) followed by the famous sisters, Grace (2:04 1/4) and Clara (2:07 1/4), and a filly sister, Nell. The dam of Grace and Clara was Orkney (2:19 1/4), a daughter of Orkney (2:25 1/4) and horse men stated that "only Orkney mares would produce to the cover of Peter the Great."

But Peter the Great knocked these fillies out, for the following: Grace and Clara came a show or miles and much data of material breeding for the American trotters. Most recently the fillies followed have decreed that only males of the tribe—Peter Volo (2:02) are desirable the center of the sidewalk, and of horsemen being that fillies by Peter Volo are sour and do not train and race well.

There is considerable evidence of the superiority of the males of the family, though not in his list of 200 trotters, but the same evidence at Peter Volo mares do not seem to have looked into the sex of the stars of some other leading branches of the trotting family. Notably that of Guy Asworthy (2:08 1/4) Peter Volo has seven trotters with records of 2:02 or faster, including the following: Protector (2:12 1/4), world's champion 3 year old trotter, and world's champion trotting stallion in a mare; Charlotte Hanover (2:15 1/4), Hanover's Bertha (2:15 1/4), Miss Bertha Hanover (2:16 1/4), Hollywood chief (2:07 1/4) and his brood colts (2:07 1/4) four mares and three males. Peter Volo has four pacers with records of 2:02 or faster, including Hollywood Volo (2:08 1/4), Gold Cash (2:01 1/4), Lady Volo (2:03) and Aure Volo (2:03). He has 37 2:00 performers divided as to sex in 27 males and ten females, evidence of the more numerous males in his 200 list than females.

But the family of Guy Asworthy leads far more prominently to males than females, more so than Peter Volo, though the public rarely registers an opinion of the superiority of the males over the females in Guy Asworthy's family. Guy Asworthy is the sire of no less than fifteen trotters with marks of 2:02 or faster. Ninety-three per cent of Guy Asworthy's title having records of 2:02 or better are males. The male line in Guy Asworthy's family goes even farther, as he is the sire of four two mile, or faster trotters. These include Lee Asworthy (1:58 1/4), Guy McKinley (1:58 1/4), Mr. McKinley (1:59 1/4) and Arion Guy (1:59 1/4) all males.

Guy Asworthy has forty in the 2:05 list with 28 or 70 per cent males, an almost identical percentage of males among his extremely fast record performers, as is the case with Peter Volo. And when one returns to Peter Volo's 2:05 list, this horse having four trotters in 2:00 or better, the same as Guy Asworthy, it is found that the mares lead with 75 per cent. Pro better (1:59 1/4) being the only male in the preferred class.

Among the world's champions in regards sex, the males have it. Peter Manning (1:54 1/4), world's champion trotter, is a male, as is the champion pacer Directum (1:56 1/4). But second in the matter of fastest records by a trotter, comes Nedda (1:58) a mare, so that in reality there is no evidence that either sex is superior.

The male retirement of the great colt Protector (2:15 1/4) star of the Peter Volo, either male or female, writes final to the racing career of a trotter many times as one of the fastest and hardest trotters of either sex that has yet appeared. Though Protector's racing career was concluded at the close of three year old form and he was retired at Walnut Hall Farm, where he was bred, the figures on the stallion son of Peter

HEARD ON THE STREET

"Racing your dog seems to be in vogue."

"Oh, my boy," responded the old Senator, "don't get mixed up with the government service. Nothing to it. Raise a young man. Besides, I have promised that attention to my son."

A kind hearted postman saw a little boy trying to reach the doorknob. He rang the bell for him then said:

"What are you, my little man?"

"Little boy—Run like h. I, that's what I'm going to do."

The head master of a school recently put up a notice that on an early date he would lecture on the following subject:

"Our Eyes and How We See Through Them."

Shortly afterward he was astonished to find an alternative title written underneath:

"Our Pupils, and How They See Through Us."

Volo show him to have been a master trotter, he raced thirteen times as two year old, ten times over half mile tracks and three times over mile tracks. He won eight races, three seconds, one third and once was unplaced. Last season he made but seven starts, winning six firsts and a second, which gave him a total of 26 races. He participated in as a two and three year old. Appended is the table of the race career:

1st 14; 2nd 4; 3rd 1; 4th 1; 5th 1; 6th 1; Money won \$24,217.50.

Protector won four heats in 2:10 or faster as a two year old, one in 2:10 over a half mile track in June and three others over mile tracks, trotting in 2:03 at Lexington in the first heat of the Kentucky Futurity. Had he been campaigned over the mile tracks as a two year old instead of over the small ovals he would have had a much larger number of heats in 2:10. In 1921 he raced exclusively over the mile tracks, winning fourteen heats in 2:10 or faster, his slowest heat of the year being 2:07 1/4 at Aurora, Ill. That a better line on the big colt's showing lies in the fact that 11 of his 2:10 or better miles were in 2:05 or faster. His world record mile of 1:59 1/4 was made in the second heat of the Kentucky Futurity at Lexington, Sept. 22.

Protector's gross winnings as shown above do not give him full credit for his earnings and although they were taken from the official year book of the American Trotting Register Association, is accurate in that the money is earned as investors aware.

A kind hearted postman saw a little boy trying to reach the doorknob. He rang the bell for him then said:

"What are you, my little man?"

"Little boy—Run like h. I, that's what I'm going to do."

INTERNATIONAL HARVESTER CROP PRICE GUARANTY

Take advantage of this offer . . .
Get the new equipment you need to reduce your production costs

Many farmers who need new machines for the economical production of their crops have been reluctant to buy them because of uncertainty as to the prices they will receive later in the year for these farm products.

In order to meet this situation, the International Harvester Company of Canada, Ltd., offers to farmers purchasing machines after this date, a definite price guaranty on wheat based on 77 cents a bushel for No. 1 Northern at Winnipeg, applying to a liberal portion of the purchase price of the machine. If the market price for wheat does not reach the guaranteed price at the time payment becomes due on notes given and maturing this year, the purchaser of machines under the plan will receive a credit equal to the difference.

Any farmer in Canada, regardless of where he lives or what he raises, can purchase McCormick-Deering farm machines under the terms of this offer.

This is your chance to replace wornout and obsolete equipment on a favorable price basis. Let us explain the details of this remarkable plan and tell you just how to take advantage of it in equipping your farm with the new cost-reducing machines you need at a real saving.

TARIFF RESTRICTION POLICY OF THE DEMOCRATS

The tariff revolution of the Democratic National Convention was in these terms, says the Winnipeg Free Press:

A competitive tariff for revenue with a fact finding tariff commission free from executive interference; reciprocal tariff agreements with other nations; and an international economic conference designed to restore international trade and facilitate exchange.

In his speech of acceptance, Governor Franklin D. Roosevelt, the Democratic nominee for President, made this reference to the tariff:

Out of all the tons of printed paper, out of all the hours of oratory, the recriminations, the denunciations, the happy thought plans in Washington and in every state, there emerges one great, simple, crystal pure fact that during the past two years a nation of 120,000,000 has been led by the Republican leaders to erect an impenetrable barrier of tariff restrictions around its borders through the instrumentality of tariffs which have isolated us from all the other human beings in all the rest of the world. I accept that admirable tariff statement in the platform of this convention. It would protect American business and American labor.

By our acts of the past we have invited and received the retaliation of other nations. I propose an invitation to them to forget the tariff, to sit at the table with us, as friends, and with us for the restoration of the trade of the world.

Go into the home of the business man. He knows what the tariff has done for him. Go into the home of the factory worker. He knows why socialism do not move. Go into the home of the farmer. He knows how the tariff has helped to ruin him.

Ordinarily it would not matter what the Democratic tariff policy in a presidential year was. But 1932 is different. It may well happen that within a year the Democrats will be in a position to give effect to their tariff programme. As set out in the resolution and as interpreted by the candidate it outlines a policy widely differing from that in which the Republicans are committed.

The most notable change in the announcement of a willingness to make reciprocal tariff agreement with other nations. In recent years the United States tariff policy has been one of what has been called equal treatment of nations. That is to say against nations, without distinction. The United States proposed the highest tariff ever levied by man. In virtue of this "equal" treatment of all nations the United States has asserted a claim, which it has not successfully enforced in many cases to share in the minimum tariffs of other nations. The other nations have regarded this attitude as unbelievably arrogant; but its fairness and propriety have been justly grating. They would mark a great advance in tariff policy of the United States. This is a question in which it is hardly necessary to say, Canada is profoundly interested.

A return to the other system of negotiating tariff concessions by just granting them would mark a great advance in tariff policy of the United States. This is a question in which it is hardly necessary to say, Canada is profoundly interested.

BRITISH MARKET FOR CANADIAN CATTLE IMPROVES

Canada shipped 3,782 live cattle to Britain this season up to the end of June. This compares with 3,145 head for the corresponding period last year.

Any steps taken by the British Government to improve duties, or the Irish Free State to counter the failure of the Free State to pay the half yearly land annuities of £2,000,000 may have an important bearing on the cattle trade.

Ireland is the only competitor of Canada in the live cattle shipments to the British markets, other than the competition from the domestic grown stock. Ireland has had slight advantage, in that the movement of Irish cattle in the United Kingdom is not restricted to the extent that Canadian cattle is. One of the questions Canada is preparing to press at the coming conference is the removal of this disability in the regulations against Canadian cattle, recognized as, perhaps, the most healthy cattle in the world.

Cattle prices have held fairly well in the United Kingdom so far this summer, but a falling off has been noticed recently with the advent of heavy shipments from Ireland and the warm weather, when less beef is consumed. Officials of the Department of Agriculture expect that the flow of cattle from Canada will keep up and, the present rate, it should total around 30,000 head for the entire year. Last summer the first season in which cattle had been shipped to England in many years, about 22,000 head went over.

Most of the cattle to go from now on will be those grass fattened or store cattle which will have to be finished in Britain. The quality of cattle shipped so far has been very high, and the department has received much praise from Old Country buyers.

This business is regarded as having great possibilities. Canada has a distinct advantage over all other countries, except Ireland, Southern Hemisphere cattle, for the most part, are excluded because of foot and mouth disease and the difficulty to ship the live animals through the Tropics to European markets.

TWINE SHIPMENT FOR U. G. G. COMING IN VIA CHURCHILL

Winnipeg—R. S. Law, president and general manager of the United Grain Growers, Ltd., announces that a consignment in Great Britain to the company's specifications

has been ordered shipped to the U. G. G. warehouse at Saskatoon by the Churchill route on the steamship Penworth, expected to be the first vessel arriving at Churchill this year. While most U. G. G. twine is manufactured in Canada, the company has been accustomed during the last 15 years to obtain a portion of its requirements in Great Britain, and a number of years ago inaugurated the movement of British made twine to western Canada through Vancouver.

One gratifying feature of the twine situation this year, said Mr. Law, is the decline in price to the lowest level in many years. On an average throughout western Canada prices will be approximately 3 1/2 cents per pound lower than last year. This on a quantity of 75 million pounds, which, roughly, may be taken as an estimate of western requirements, will mean a saving this year to farmers of \$2,500,000 as compared with last year. The retail price to farmers at different points varies with the freight rate, and prices are now being worked out and will shortly be published in detail, but at representative points this year farmers will pay from 8 to 9 cents a pound for twine, whereas, two years ago the corresponding range was from 11 to 15 cents, and during the war the retail price to farmers was as high as 26 cents a pound.

"In spite of the development of combine harvesting in western Canada," said Mr. Law, "so far we have found no material reduction in the total quantity of twine required in the west as the development of new farming areas in the north has offset in this respect the shift to combine harvesting in the open plains areas. The twine requirements of the west this year are expected to be decidedly heavier than during the past three years on account of the better prospects over large parts of Saskatchewan, but we find that twine manufacturers have made ample preparation to have available all the twine that may be required."

SOME HOWLERS

Another collection of schoolboy howlers, compiled from classroom and examination papers, include these gems:

Book Tarkington was the assassin of Lincoln.

Robert Louis Stevenson got married and went on his honeymoon. It was then he wrote "Treasure With a Ducky."

Queen Victoria was the only queen who sat on a thorn for only three years.

Robinson Crusoe was a great singer who lived on an island. King Henry the Eighth was the worst souther England ever had. President Wilson firmly believed in open convents openly arrived at.

Benjamin Franklin walked through the streets eating a bun with others tucked under his arm and in his pockets, and a girl laughed at him, so he married her. One of the best schoolboy howlers is that credited to General Baden Powell, founder of the Boy Scouts, by Cyril Maude, the actor, in his reminiscences, "Let I Forget." Baden Powell and Maude together went to the same school. One day, chuckles the actor, "I. P." was asked:

"What did Eliza say when he saw Eliza go up in the burning fiery chariot?"

"Eliza said," answered the future general, "Goodness me, I never saw anything like this before."

INSURANCE DOUBLY SURE

The little old lady had been appearing regularly four times a year for a long period to pay the quarterly premiums on her husband's life insurance.

Depression made itself felt, and one day she arrived sorrowfully at

THEY ARE REAL GOOD

ROCKYFORD

A very pleasant day was spent in town on Sunday by a great many when the Knights of Columbian Society from Calgary with their wives and families paid the brothers here a visit. They were highly royally entertained by the friends to a chicken dinner in the hall. After which an enjoyable program was given, with Father Kilgus acting as Chairman and Mayor Watford giving them an address of welcome. A baseball game had been arranged between Wayne and Rockyford, and all got much enjoyment from this diversion. Very few runs were made the game a good one to watch. The advantage went to Wayne in a score of 3 to 1. Many took part in the soft ball game which was then played.

Then to Mr and Mrs Peter Stitz, a son, both Mother and son are doing well.

The Boy Scouts troops are enjoying a week's vacation at a beautiful valley on the Rocky-creek near Rosbush town. Scout Master Clarke and Cub Leader Drowell with their assistants are having a busy time with their large family of about 45, but are doing wonderfully well. Counsellor Hugh paid the camp a visit on Monday afternoon.

Rev H. C. Woods and Mrs. Woods are spending a two weeks' vacation at the home of their daughter Mrs. Sheppard and Mrs. Booth who live near Winnipeg. The Woods will again take over Catechism classes on Sunday 21th.

The next meeting of the Rockyford United Church Ladies Society was held at the home of Mrs. Howick on Thursday afternoon, July 7th, with the president in the chair. All arrangements for a luncheon to be conducted at the annual sports day grounds were completed. The committee to sell in the grounds, the residents were appointed, being Mrs. Howick, Mrs. Birt, Mrs. Stone, Mrs. Gibson and Mrs. McLean. Many small matters were to be settled for the month, this making a busy session. A very dainty lunch was served by the ladies assisted by Mrs. Poole and Miss May Birt. The next meeting will be the August meeting held at the home of Mrs. Ross with Mrs. Colbert assisting.

VAST SUMS OF MONEY OWED TO UNITED STATES

Washington.—The amount of war debts owed the United States by the various foreign countries was listed by the treasury as follows:

Armenia 19,019,167; Austria 23,752,217; Belgium 19,589,000; Czechoslovakia 16,757,021; Estonia 16,456,012; Finland 5,000,000; France 2,862,500,000; Great Britain 1,258,000,000; Greece 31,516,000; Hungary 1,360,500; Italy 2,901,900; New Latvia 8,885,861; Lithuania 6,197,682; Nicaragua 2,524,227; Poland 2,064,072,000; Rumania 8,800,000; Russia 217,325,000; Yugoslavia 81,625,000; Total 11,298,291,461.

The list does not include amounts owed by Germany on account of the army of occupation.

Miss Louise Riley is at present visiting her uncle Mr. Philip in Perry City of this district.

Mr. Ralph Knight has just returned from a visit to his mother in Portland, Oregon. He is on his way back to his home in Alberta with him, as they have finished their year in school there.

St. Lawrence
Deep Water Canal

Ottawa.—The St. Lawrence deep waterway—ship channel from the heart of the North American continent to the Atlantic ocean—is to be constructed, Canada and the United States have completed an outline of the necessary treaty. Final terms have been settled, and the treaty is being prepared for signature at an early date.

Long anticipated, the official announcement was made simultaneously in Ottawa and Washington, in the whole gamut of world engineering the project will be second only to the Panama Canal, described officially as a means of improving and deepening transport for a large part of the North American continent, carrying out of the project will enable vessels now commonly plying on the Great Lakes to reach the sea. Alternatively, ocean vessels will be able to penetrate the continent to the head of the Great Lakes.

Combined with great navigation facilities will be a very substantial power development. More than 5,000,000 horsepower of electrical energy will be made available out of this total, 2,500,000 horsepower will be generated in the international section. Ontario will have the use of 1,000,000. The United States, under the Boundary Waters Treaty, will have the remaining 1,000,000 horsepower. In the national or purely Canadian section, lying in Quebec province, 2,000,000 horsepower will ultimately be developed. The Boundary Waters Treaty provides that 20 miles from Montreal, will be utilized in the national section.

Thus—400 years after its discovery by Jacques Cartier—the St. Lawrence River by international action may go far towards realizing transportation in Canada again, there will be the industrial activity contingent on the water power development.

New works necessary to secure the deep waterway now:

1 Compensation—work done some further excavation between Lake Erie and Lake Huron.

2 Compensation works in the St. Lawrence River.

3 Excavation of reefs and points in the Thousand Islands section of the St. Lawrence River from Lake Ontario to Champlain Point.

4 Two developments on the international rapids section, two canals and a total of three locks. Two power houses with an aggregate installed capacity of 2,500,000 horsepower.

5 Dredging of shoals in Lake St. Francis.

6 Construction of locks at the lower end of the Beauharnois power canal.

7 Control dams, and a canal with three locks from the foot of Lake St. Louis to Montreal (about 100 miles) with a power house at the foot of the Lac Beauharnois with a final installed capacity of 925,000 horsepower.

The brief official announcement simultaneously released in Ottawa and Washington intimates that the treaty has been signed "a full statement by the Government, concerned will be issued." Official estimates of the cost of the navigational expenditures, will be from \$175,000,000 to \$200,000,000, while the entire total up to \$300,000,000.

In the division of costs as between Canada and United States it is reported the basis will be a 50-50 one with allowance to Canada for \$100,000,000 expenditure on the Beauharnois Canal and further expenditures such as the St. Lawrence ship channel.

A two stage development will take place, Dana, it is stated will be constructed at Barnhart Island and Ogden or Chrysler Island.

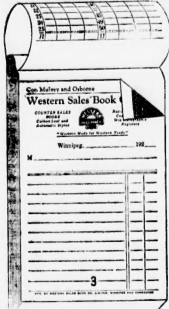

For Sale. A folding bed by a lady that shifts up and looks like a piano.

Sergeant—Did ye shave this morning, McVish?

Recruit—Aye, sergeant.

Sergeant—Oh did ye? Well, the next time ye shave stain a wee bit clear fur yer razor.

NEWS NOTES

Hon. Gordon S. Harrington, premier of Nova Scotia, accompanied by Mrs. Harrington, left Halifax recently for Montreal where they boarded S.S. Prince of Bedford for a short holiday in the Old Country. During his absence, Hon. Percy C. Black will be acting premier of the province.

It is not too much to say that any improvement in the revenues of the railways will immediately make itself felt in the Canadian trade and that the maintenance of railway service will do more than any other factor to restore strength to the nation's institutions, says an editorial in the Charleston, S. C. Post.

The "career open to merit" in railway affairs is well illustrated in the case of Charles H. Ewing, a railroad for 40 consecutive years, recently promoted president of the Reading Company. In 1883, at the age of 17, Ewing began his railroad career as a trainman in the employ of the Philadelphia & Reading Railway, now the Reading Company.

There were 487 more and 504 less shot in New Brunswick last year, according to figures contained in the annual report of Chief Game Warden H. H. Ritchie to the provincial minister of Lands and Fisheries. There was also a very successful partridge season with a bag of 14,600 birds.

Warner Warden and generally favorable conditions point to a good development of the western wheat crop, according to the report of the agricultural department of the Canadian Pacific Railway. Virtually all of Manitoba's seed in the Saskatchewan and Alberta seedling will be completed by the end of the third week of May.

Two famous globe-trotters, Dr. Roy Chapman Andrews, noted anthropologist, and Bob Davis, New York Sun's world-gridding correspondent, came together at Victoria recently on Canadian Pacific liner Empress of Canada, the former on his way to Peking and the latter travelling with Mrs. Davis to Honolulu.

Success attending the inaugural cruise of S.S. Princess Alice last year in northern British Columbia and Alaska has led the British Columbia Coast Steamship service to provide another special excursion with the S.S. Princess Charlotte, leaving August 1 from Vancouver, it is announced by E. F. Sturges, general manager, Canadian Pacific Railway.

Capital, labor, the learned professions, diplomacy and business all represented in the distinguished list of the Canadian Pacific Empire Builders of Australia, arrived at Quebec recently. The list included Sir Charles Gordon, president of the Bank of Montreal; Tom Moore, president of the Trades and Labor Congress of Canada; F. E. Meredith, K.C., Dr. Moore, president of the Canadian Trade Unionists; and Colonel Hercules Harbo, Canadian Government Trade Commissioner in Perth.

Residents of Maritime Provinces will have a fine opportunity of visiting Montreal's great Exhibition and Military Tournament, May 27 to 30, through the Canadian Pacific coach excursion leaving Saint John, Fredericton, Woodstock, St. Stephen, St. Andrews and Miramichi, leaving on the railway train operated by the railway from Miramichi and the Suburbs, Ontario, at 10:00 a.m.

A Great War!
A Great Pestilence!
A Great Depression!

4 ALL within twenty years. Could there be a more grueling test?

4 Yet life insurance stands invincible. During that whole period it paid every obligation promptly and fully — as it has ever since the Dominion was formed.

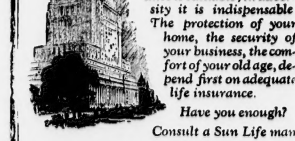

4 The Sun Life Assurance Company of Canada itself paid to policyholders and beneficiaries in cash during these periods—

The War (1914-1918)
The Flu (1919)
The Depression (1930-1931)

—over \$226,000,000. It has paid to its policyholders and beneficiaries since formation nearly \$600,000,000.

In prosperity, life insurance is valuable; in adversity it is indispensable. The protection of your home, the security of your business, the comfort of your old age, depend first on adequate life insurance.

Have you enough?
